

The Freedmens Bureau: Reconstructing the American South After the Civil War (Anvil Series) (Anvil Series (Huntington, N.Y.))

The Bureau of Refugees, Freedmen, and Abandoned Lands, better known as the Freedmens Bureau, was established in the spring of 1865 to help white and black Southerners make the transition from slavery to freedom, while securing the basic civil rights of the ex-slaves. It failed to accomplish what its creators had hoped, but its history tells us much about why Northerners and Southerners, whites and blacks, approached Reconstruction in the way that they did and why that failure occurred. The Freedmens Bureau: Reconstructing the American South after the Civil War is a succinct summary of the agency's history accompanied by key documents that illustrate Northern ideology, black expectations, and white Southern resistance. Topics of the day, including labor, education, violence, politics, and justice place the federal agency within the larger context of post-Civil War history.
