

A BOUQUET FOR ELIZABETH (Counted Cross Stitch Leisure Arts Leaflet 492)

When one thinks of romantic cross stitch designs, Paula Vaughns name immediately comes to mind. Her designs are inspired by actual antique articles, in most cases. A BOUQUET FOR ELIZABETH is a study of a basket of fresh cut flowers and straw hat, with a flower identification guide. This lovely cross stitch pattern is suitable for stitching on any even weave or Aida cloth, and is even adaptable to needle point. The chart is colored to aid in reading and keeping track of ones place in the design. A little dazzle could be added with a few seed beads and blending or metallic filament.
