

Mysterious Adventures #10: Tales Of Horror from the Beyond!

It was the 1950s - the Atomic Age, the Cold War, and just the before the Space Race. Comics books were the education, the entertainment, and -- according to some -- the downfall of America. What a great time! We loved to be scared - still do, it seems - from the comfort of our own home, secure in the knowledge that there's no real danger (or so we think). Nothing could match the imagination, the surprise, and the chilling-of-your-spine like the great horror comics of yesteryear. Now you can enjoy again (or - for the first time) the colorful and scary stories that haven't seen print in many decades! The comic reprints from UP History and Hobby are reproduced from actual classic comics, and sometimes reflect the imperfection of books that are decades old. These books are constantly updated with the best version available - if you are EVER unhappy with the experience or quality of a book, return the book to us to exchange for another title or the upgrade as new files become available.
