

Valentine: A Cautionary Tale

Valentine (A Cautionary Tale) is a sweet and sour love comic by acclaimed cartoonist Todd Webb. This collection juxtaposes hilariously dark little episodes with deceptively cutesy drawings and would make a perfect gift for acynical friend who has recently gotten his or heart stomped on. Originally published in very small editions in 2005 and 2007, the new Second House edition sports beautiful new covers, color interiors, and more painful punchlines! A gem! - Punk Planet
