

## X-Men Legacy: Five Miles South of the Universe

Interstellar search and rescue! Responding to a telepathic distress call from a former teammate, Rogue, Magneto, Gambit and Frenzy teleport thousands of light years across the galaxy - only to find themselves caught in the crossfire of an inter-species conflict aboard a massive space station. As Rogue and the others struggle to save their teammates, the damaged space station drifts ever closer to a collapsing sun - imperiling the lives of the billions aboard. Can the X-Men rescue their friends, put down the rebellion and prevent the stations incineration before time runs out? COLLECTING: X-Men Legacy 254-260
